The company

MALTEZOS SA was founded in 1977 with main activity the production and trade of Solar Water Heaters. Today's activities cover the product sectors of Solar Water Heaters, Solar collectors, Vertical tanks and related accessories. MALTEZOS SA holds a leadership position in the production and trade of Solar Water Heaters in Greece. The company evolved into a leader in the Renewable Energy sector due to its consistent and high quality product range along with its customer-focused approach regarding after sales technical support and service.

The superiority of the company's products is based on the excellent quality of raw materials and the superb robotic production technology (CNC) supported with the latest quality control measures. The production process has been certified according to ISO 9001 and solar water heaters are certified according to highest European standards (Solar Keymark) by internationally accredited institutions (ICIM, MIRTEC, DEMOKRITOS).

The company employs a vast network of authorized dealers in Greece and is also developing substantial export activity. The company's international presence is supported by an extensive distribution network with the goal to further strengthen and support its presence in an even increasing global market.

More specifically, the company :

Is certified according to EN ISO 9001:2008 for the production, design, trade, installation & technical support of Solar Thermal Systems.

MALTEZOS SA collectors have been tested according to standard EN 12975 by DEMOKRITOS laboratory and are certified according to SOLAR KEYMARK from international institutions ICIM and ELOT.

MALTEZOS SA Solar Water Heaters have been tested according to standard EN 12976 and are certified according to SOLAR KEYMARK from international institution ICIM and are certified INTERNATIONAL INST ICIM

Company philosophy

The vast majority of our clientele results from leads and recommendations of satisfied end-users. This aspect has been for years now the cornerstone upon which our distribution network has been expanding both locally and internationally.

The basic principles of our philosophy are:

Quality

Our products are manufactured utilizing the latest technology and production process and bear all relative certification marks from international institutions.

Consistency

Strict implementation of production specifications, commitment to all aspects of product warranty, continuous customer support and after sales service.

Customer focus

Our goal is to meet and satisfy all customer needs in every phase of our collaboration.

Value added investment

Product cost is substantially lower than the value resulting from the benefits of product performance during its useful life.

MALTEZOS products is based on:

- >> *Superb robotic production technology (CNC)*
- >> *Strict quality control measures in every production stage*
- >> *Excellent quality of raw materials*

project Reference

MALTEZOS SA with the long term experience in the field of solar systems and solar energy, has achieved thousands of applications in Greece and world wide.

More than 800.000 m² of solar panels have been installed by MALTEZOS SA. The amount of Thermal Energy saved per year by those panels is estimated to 550 MEGAWatt equal to 350 Ktones CO₂ emissions.

Below is a small sample of our succesful installations in Greece and abroad.

forced system in Kolimpari, chania, Greece

18 Solar water heaters MALTEZOS Inox in Athens, Greece

Residence in Skyros island, Solar water heaters with sort height base

5 Solar water heaters Sunpower, Rooms to rent, Chalkidiki, Greece

17 Solar water heaters MALTEZOS Inox, Athens, Greece

24 m² selective surface of copper collectors, Hotel in Amorgos, Greece

15 Solar water heaters MALTEZOS Inox, Iraklion, Crete

44m² selective surface of aluminum collectors, Glyfada, Athens, Greece

680 m² aluminum selective collectors, Melia Hotel, Agios Nikolaos, Crete

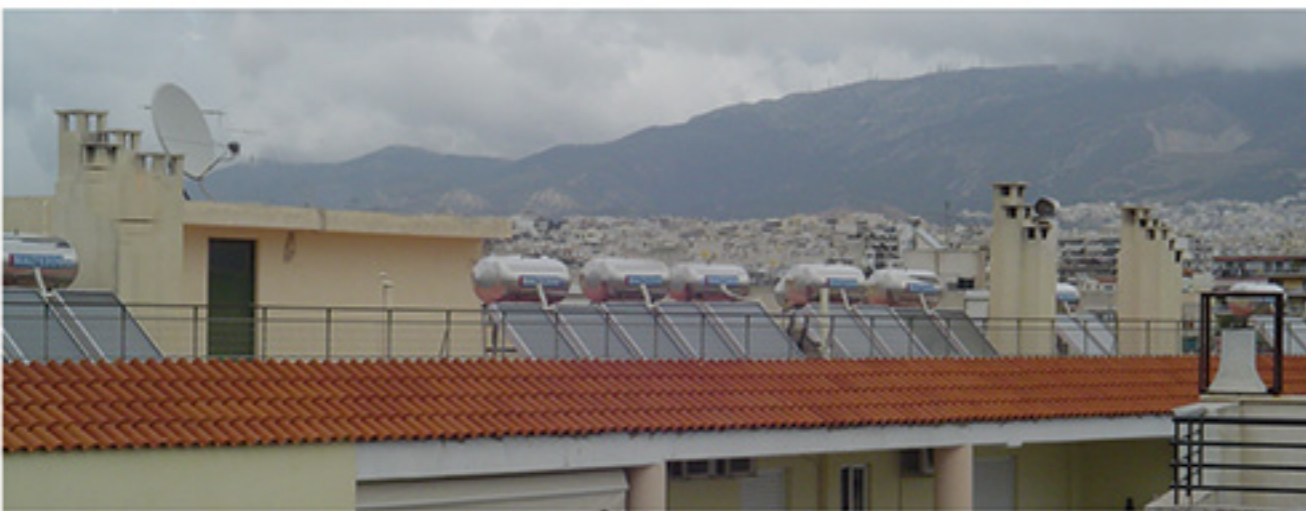

Forced system, Spain

22 Solar water heaters, sports instalations, Olympic games, Athens 2004

Budapest

12 Solar water heaters, P. Phaliro, Athens, Greece

50 m² of selective copper collectors, Italia

22 Solar water heaters, Sunpower, Small Children Institute "MITERA", Athens, Greece

48 m² surface of selective aluminum collectors, Institution "ASILON ANIATON", Athens, Greece

72 m² surface of selective aluminum collectors, Hotel, Piraeus, Greece

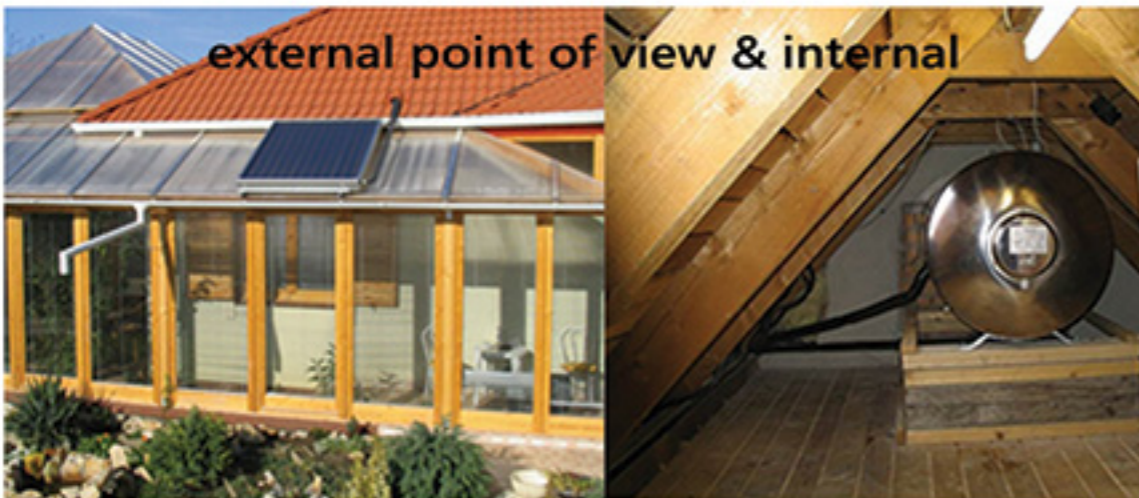

30 m² surface of selective copper collectors, Hotel Amphissa, Greece

Madera, Spain

6 Solar water heaters, Albania
